
Date of release: 05.12.2025; **Revision n°:** 4 **date:** 05.12.2025; **Approval:** R&D; **Verified:** QMS

1. Description

Highly concentrated alkaline detergent essential for washing any type of vehicle without sponging or brushing. Two-component product, it has a high degreasing and cleaning action on all types of dirt, whether organic or inorganic grease, smog, soil, stamp ink, blood stains and oil residues on surfaces such as bodywork, sides and aluminum parts, tarpaulins, engines, chassis and wheels. It contains highly dispersible surfactants and the sequestrants it contains allow it to maintain its cleaning power unaltered even in the presence of water rich in salts.

2. Technical Specification

Physical appearance	Two-phase liquid
Color	Yellow-green
Odour	scented
pH	13 - 14 as is
Specific weight at 20° C	1,135-1,155
VOC (CH)	< 3%
Biodegradability of surfactants	Over 90%
Flammability	Non-flammable
Storage	Protect from sunlight
Expiry	5 years from production date

3. Use

HOW TO USE:

Dilute with water in the following proportions:

- 1 to 70-100 if used as a car pre-wash
- 1 to 40-50 for normal cleaning
- 1 to 6-10 for washing external engines, wheels and industrial equipment.

Spray the solution uniformly from bottom to top, leave to act for a few moments and then rinse thoroughly with a cold pressure washer.

WARNINGS: as this is an alkaline product, it is recommended, especially in the summer season, to work in the shade on cooled surfaces. At low dilutions, avoid prolonged contact with aluminum and its alloys.

Read and observe the safety warnings on the container label.

For information on handling, transport, etc., refer to the Safety Data Sheet for the product in question.

The information contained in this documentation refers to the knowledge of the product at the compilation date indicated above. However, considering the many possible uses and possible interferences from elements not dependent on the manufacturer, it is not possible to assume any responsibility regarding the indications.
