### 1. Description

Special low-foaming product designed for cleaning car interiors made of fabric, carpet, plastic, and metal. Formulated with high-performance ingredients capable of quickly dissolving and emulsifying dirt, ensuring deep and lasting cleanliness. Revives colors and leaves a pleasant, long-lasting fragrance. Suitable for use with both extraction vacuum cleaners and manual application.

### 2. Technical Specification

|                                 |                              |
|---------------------------------|------------------------------|
| Physical appearance             | Clear liquid                 |
| Color                           | yellow                       |
| Odour                           | scented                      |
| pH                              | 11.0 - 11.5 at 20°C as is    |
| Specific weight at 20° C        | 1,050-1,070                  |
| VOC (CH)                        | 4.5%                         |
| Biodegradability of surfactants | Over 90%                     |
| Flammability                    | Non-flammable                |
| Storage                         | Protect from sunlight        |
| Expiry                          | 5 years from production date |

### 3. Use

HOW TO USE:

- **With extraction vacuum cleaners:**

Dilute the product in a ratio of 1 part product to 20–30 parts water. Spray the solution evenly without over-wetting the fabric, then vacuum to extract dirt using the appropriate nozzle.

- **For manual use:**

Dilute the product as above. Apply to the surface and agitate with a brush to loosen dirt. Wipe with a damp cloth and allow to dry naturally.

---

Read and observe the safety warnings on the container label.

For information on handling, transport, etc., refer to the Safety Data Sheet for the product in question.

The information contained in this documentation refers to the knowledge of the product at the compilation date indicated above. However, considering the many possible uses and possible interferences from elements not dependent on the manufacturer, it is not possible to assume any responsibility regarding the indications.
