
Date of release: 10.10.2024; **Revision n°:** 3 **date:** 10.10.2024; **Approval:** R&D; **Verified:** QMS

1. Description

MC323 Catalytic Converter Cleaner addresses carbon build-up and deposits in cars fitted with a catalytic converter. Catalyst Cleaner Premium cleans the entire fuel system, injectors, valves and pistons which will result in improved and more efficient combustion, reducing emissions and preventing damage to the catalytic converter.

Simultaneously with cleaning the fuel system Catalyst Cleaner Premium will show immediate reduction of exhaust emissions. Protects catalyst performance against phosphorus poisoning.

Benefits:

- ✓ Cleans and reduces deposit build-up in catalyst equipped engines
- ✓ Prevents malfunctioning and expensive repairs of the catalytic converter
- ✓ Increases fuel octane number
- ✓ Improves combustion and engine performance
- ✓ Improves fuel economy
- ✓ Restores power and performance
- ✓ Eliminates rotten egg smell
- ✓ Prevents spark plug fouling
- ✓ Reduces emissions of hazardous exhaust gases

2. Technical Specification

Density g/cm ³	0,804
Colour	Transparent
Odour	Characteristic
Flash point	> 61°C
Storage	Protect from sunlight
Expiry	5 years from production date

3. Use

All petrol engines (including GDI) fitted with a catalytic converter.

Direction:

Pour the contents of one bottle in the fuel tank before filling it with petrol.

Dosage:

One bottle treats 40 to 60 litres of petrol.

Recommended use:

One bottle every 5000 km.

Read and observe the safety warnings on the container label.

For information on handling, transport, etc., refer to the Safety Data Sheet for the product in question.

The information contained in this documentation refers to the knowledge of the product at the compilation date indicated above. However, considering the many possible uses and possible interferences from elements not dependent on the manufacturer, it is not possible to assume any responsibility regarding the indications.
