

Date of release: 05.11.2025; **Revision n°:** 3 **date:** 05.11.2025; **Approval:** R&D; **Verified:** QMS

1. Description

Polyfunctional mixture of aliphatic solvents, acetates, alcohols, without chlorinated solvents. It is suitable for cleaning of brake systems of cars, motorcycles and trucks equipped with disc or drum brake system.

Benefits:

- ✓ The new formula
- ✓ Precision spray nozzle
- ✓ Effectively cleans and degreases
- ✓ Quickly evaporates from the surface being cleaned
- ✓ It does not leave streaks.

2. Technical Specification

Physical aspect	Aerosol liquid
Base	Compound of detergents and solvents
Appearance	Limpid and colourless liquid
Evaporation	Very fast
Density spray	0.75 g/cc. (+/- 0,04), to 20 °C (liquid phase)
CFC FREE	
Storage	Fresh and ventilated rooms at temperatures between + 10 ° C and + 30 ° C; avoid the accumulation of electrostatic charges
Expiry	5 years from production date

3. Use

HOW TO USE:

Remove coarse dirt of soil with a jet of water then spray the product on the braking systems to be cleaned from a distance of 30 to 40cm, leave for a few seconds and remove the dirt with a brush; re-spray the product again and rub it with a cloth.

If there is heavy encrustation, it may be necessary to repeat the operation.

Read and observe the safety warnings on the container label.

For information on handling, transport, etc., refer to the Safety Data Sheet for the product in question.

The information contained in this documentation refers to the knowledge of the product at the compilation date indicated above. However, considering the many possible uses and possible interferences from elements not dependent on the manufacturer, it is not possible to assume any responsibility regarding the indications.
