
Date of release: 03.11.2025; **Revision n°:** 3 **date:** 03.11.2025; **Approval:** R&D; **Verified:** QMS

1. Description

REVIX Air Intake & Throttle Body Cleaner quickly and thoroughly cleans carburetor, throttle body and valves from oil, grease and fuel residues. Lubricates parts and dries quickly without residue. Ideal in industry and workshop applications for repairs, assembly and routine maintenance.

Benefits :

- ✓ Removes oil, grease and fuel residues quickly and effectively from carburetor, throttle body, valves, air mass meters, intake, actuators, injectors and other parts.
- ✓ Cleans and degreases butterfly throttle valves and internal throttle body.
- ✓ Suitable for MAF sensors.
- ✓ Lubricates treated parts.
- ✓ Dries quickly without residue.

2. Technical Specification

Density g/cm ³	0,740
Colour	Colourless
Odour	Aromatic
Storage	Protect from sunlight
Expiry	5 years from production date

3. Use

Usage:

For cleaning of carburetors, throttle bodies and valves. Ideal in industry and workshop applications for repairs, assembly and routine maintenance.

Direction:

Shake well before use. Spray on parts to be treated and allow the product dissolve and evaporate. Air dry the parts. Repeat if necessary.

Read and observe the safety warnings on the container label.

For information on handling, transport, etc., refer to the Safety Data Sheet for the product in question.

The information contained in this documentation refers to the knowledge of the product at the compilation date indicated above. However, considering the many possible uses and possible interferences from elements not dependent on the manufacturer, it is not possible to assume any responsibility regarding the indications.
